

SilverFOCS Incubator

A stylized, dark gray game controller with orange buttons and a central joystick. The controller is centered in the background. The text "SilverFOCS Incubator" is at the top, "S-FOCS (game)" is on the joystick, and "Easy Challenges" is below it. The bottom of the slide features a red cross-shaped button on the left and several green and blue circular buttons on the right.

Easy Challenges is a rage game created by Silver Dog. It's called Easy Challenges because although each level seems to be easy, underlying each and every one of them is a challenge you must triumph over to win the game!

The controls are simple:

- Use the \uparrow / **W** to jump
- Use the \leftarrow / **A** to go left
- Use the \rightarrow / **D** to go right
- Use **R** to respawn
- Utilize these controls well to outsmart your way to overcome the obstacles and complete each level!
